

OTTAWA HOLDS CANADA'S WAR FATE

Alberta's Private Debts Act

MANY people in Alberta are being confused by interested parties, as to their rights under the law now in force as to payment of debts contracted before and after July 1, 1932. The Edmonton Bulletin as a service to its readers, republishes the Act in full.

1936
(SECOND SESSION)

CHAPTER 2.

An Act to Provide for the Reduction and Settlement of Certain Indebtedness.

(Assented to September 1, 1936.)

HIS MAJESTY, by and with the advice and consent of the Legislative Assembly of the Province of Alberta, enacts as follows:

1. This Act may be cited as "The Reduction and Settlement of Debts Act."

2. In this Act, unless the context otherwise requires—

(a) "Debt" means any sum in the nature of a liquidated demand for the payment of which any person is liable by virtue of any contract, agreement, covenant or stipulation, whether in writing or oral, and whether express or implied, but does not include—

(i) any debt due to or by the Crown in the right of Canada;

(ii) any debt due to or by the Crown in the right of the Province;

(iii) any debt due to the Canadian Farm Loan Board or the Soldier Settlement Board;

(iv) any indebtedness for assessments, rates or taxes payable pursuant to any statute or pursuant to the terms of any agreement providing for the consolidation and payment of taxes, rates or assessments;

(v) any debt due to or by a city, town or village, municipal district, improvement district, school district, irrigation district, drainage district or municipal hospital district;

(vi) any indebtedness guaranteed by the Crown in the right of the Province;

(vii) any debt in respect of which a direction has been made or given by the Debt Adjustment Board under the provisions of The Debt Adjustment Act, 1933, for the payment of money in the year 1936;

(viii) any other kind or description of debt which is declared by the Lieutenant Governor in Council to be a debt to which this Act does not apply.

(b) "Debt Adjustment Board" means the Debt Adjustment Board constituted pursuant to The Debt Adjustment Act, 1936; and

(c) "Old debt" means any debt the whole of the consideration for which arose before the first day of July, 1932, and includes any debt of any person under any guarantee for the payment of any old debt whether the guarantee was given prior to the first day of July, 1932, or at any time thereafter.

3. Notwithstanding any covenant, agreement or stipulation, whether express or implied and however created, by virtue of which any old debt is made payable, the amount which shall be recoverable on account of any old debt shall be the following amount and no more, namely: the amount of the balance of the old debt outstanding and payable as at the first day of July, 1932, including any advances made under and by virtue of the agreement or other instrument creating or securing the debt, together with any further advances made since that date, reduced by the amount of principal, interest or otherwise; and as and from the first day of July, 1932, no interest shall be payable on any part of the said amount.

4. Notwithstanding any covenant, agreement or stipulation, whether express or implied and however created, by virtue of which any debt other than an old debt is made payable, the amount which shall be recoverable on account

BLUM'S FRANC ACT APPROVED BY 129 VOTES

Deputies Favorable to Devaluation Bill After All-Night Session

COPYRIGHT, 1936, BY ASSOCIATED PRESS PARIS, Sept. 29.—Premier Blum's franc devaluation bill was adopted by the Chamber of Deputies yesterday by a vote of 220 to 221 after an all-night session marked by frequent clashes between the government and the opposition.

Facist sympathizers who surrounded the steps of the Alcazar, related horrible stories of looting and slaying as the guns of the insurgents boomed outside the city's historic fortress.

He said the leader of Toledo's rebels was a man who had been a member of the notorious harraga of dynamite, gasoline and shell which had been used in the recent battles.

Indicative of the tremendous popular support given to the government's proposal to devalue the franc, was a detailed record kept by the chamber of the number of speeches, others used in the bombardment of the fortress.

The computer states that tax collections have fallen away since the beginning of the financial crisis during the past six years, being only 71.8 per cent. and that the total amount of tax arrears of \$2,500,000. "While the outstanding taxes may safely be estimated at 75 per cent. of the arrears, the difficulty is to finance meannance," Mr. Hodgeson said.

The computer states that the national debt charged by the ministry of finance has increased by \$3,000,000, and the bank is naturally reluctant to increase this necessity of paying the public.

Martial Law To Suppress Arabs: Palestine Terror

Fresh Drive On To Madrid Follows Up Killing 600 Priests

TOLEDO, Sept. 29.—After a solemn celebration of the capture of Toledo, insurgent forces today began a fresh drive toward Madrid, major objective of their relentless advance. Insurgent commanders reported the government columns scattering in disorder south of Toledo.

BY RICHARD G. MASSICK Copyright, 1936, by Associated Press

TALAVERA DE LA REINA, Spain, Sept. 29.—The Fascist priests, supporting the Facist rebellion, were slaughtered by Socialists during the last hours of the overnight drive on Toledo, the insurgents said today.

Facist sympathizers who surrounded the steps of the Alcazar, related horrible stories of looting and slaying as the guns of the insurgents boomed outside the city's historic fortress.

He said the leader of Toledo's rebels was a man who had been a member of the notorious harraga of dynamite, gasoline and shell which had been used in the recent battles.

Owes Bank \$1,332,073. Tax Arrears Total \$2,500,000 Now

BANK overdraft of \$1,332,073, tax arrears of \$2,500,000 and proposed expenditure of \$1,000,000 which cannot be financed have placed Edmonds in a serious financial position, according to a report prepared for city commissioners by Comptroller Hodgeson.

The computer states that tax collections have fallen away since the beginning of the financial crisis during the past six years, being only 71.8 per cent. and that the total amount of tax arrears of \$2,500,000. "While the outstanding taxes may safely be estimated at 75 per cent. of the arrears, the difficulty is to finance meannance," Mr. Hodgeson said.

NO SEIZURE OF BANK SAVINGS

Absolute denial was given on Tuesday by Hon. Ernest G. McArthur, Minister of Finance, that the provincial government had discussed or contemplated on legal grounds the seizure of savings in the province and 25 per cent. of savings.

Mr. McArthur opposed to confederation, he said. "Such masters as we are were never asked to think, let alone thought of."

The minister's statement was made when asked regarding rumors that he would be asked to resign.

"Yes, I have heard the rumors," he said, "but I am minister in denying their truth."

Asked if there was any truth in the report that a bill was introduced to seize savings in the province, he said: "There are brave men and a heroic I hope you will die like a hero a man who would do such a thing as Spain! Your life will then be eternal!"

The son was executed forthwith, the correspondent added.

RED RUFFING, CARL HUBBELL FIRST GAME

NEW YORK, Sept. 29.—Joe McCarthy, manager of the New York Yankees, today nominated Charlie "Red" Ruffing, right-handed pitcher, to pitch against the New York Giants in the opening game of the World Series, set for Saturday evening at the Polo Grounds tomorrow. Carl Hubbell, great southpaw, will take the Giants.

The mayor declared there was no guarantee the new act was good and that it would be up to the courts.

"The law, as it stands, probably would be a law if the motion passed," he declared.

Control Rights

MANCHESTER, Eng., Sept. 29.—The city council has asked the British government for a new Rent Control Order, as control house rentals of less than \$10 a year.

Calgary Rejects Move To Proclaim New Interest Act

CALGARY, Sept. 29.—A resolution to call upon the Alberta legislature to proclaim the act respecting interest on outstanding bonds to a maximum of three per cent. was defeated yesterday by the Calgary city council.

A 10 to 9 vote was given in favor of the motion proposed by Alderman Peter M. Morris.

After Mayor A. E. Cross, who had supported the motion, was defeated after Mayor Morris' speech, the motion was carried.

It was voted that the motion was

not carried.

The motion was carried.

SOLON FROM BRANDON TO SPEAK HERE

George Dinsdale, M.L.A., Will Address Meeting in S.A.C. Citadel

Coming to Canada from Leyden, Yorkshire, England, he is a man in his 30's and practically penniless when he arrives in Brandon. He is a graduate of the University of Manitoba, M.L.A. for Brandon, is a shining example of a man who has made good. His father, George Dinsdale, who operates a carriage business in that town, was twice married and had six children before his election to the Manitoba legislature.

In his coming to Edmonton to conduct meetings at the Salvation Army Citadel in conjunction with the Young People's Singing Contest, Solon Dinsdale will speak on "Life-Long SALVATIONIST."

A life-long Salvationist, Mr. Dinsdale is the corps sergeant-major of the Brandon Citadel and is at all times an energetic worker in the religious life of that city.

In addition to his activities in religious matters Mr. Dinsdale has given much time to public affairs and has been honored by his fellow citizens by election to the Brandon City Council, a man of the city of Brandon and has recently been re-elected to represent the Brandon constituency in the Manitoba legislature.

SPECIAL MEETING

Mr. Dinsdale will take part in a special meeting of the Citadel on Saturday evening, October 3, at 8:30 o'clock, and will also conduct the singing contest on Sunday morning. The Salvation meeting at 7:30 Sunday evening, will be followed by a musical festival at the Citadel on Monday evening at 8 o'clock.

(2) In case any judgment has been entered in any court in respect of the recoverability of any debt shall be taken of any contract, agreement, covenant or stipulation whereby any interest accruing from and after the first day of July, 1936, is to be added to and form part of any principal sum and for the purpose of such computation every such contract, agreement, covenant and stipulation shall be treated as if it were the first day of July, 1936, be null and void of no effect.

(3) (1) Unless it is otherwise ordered pursuant to subsection (3) or subsection (4) hereof, the amount recoverable in respect of any old debt shall be payable by ten annual instalments on the fifteenth day of November in the year 1937 and in each ensuing year in the following amounts, namely: the amount of the first, second and third instalments shall be five per cent of the amount recoverable; the amount of the fourth, fifth, sixth and seventh instalments shall be ten per cent of the amount recoverable; the amount of the eighth, ninth and tenth instalments shall be fifteen per cent of the amount recoverable; and so on.

(2) Notwithstanding subsection (1) hereof the person liable for the payment of any such old debt shall be entitled to pay the same either wholly or in part at any time before the days prescribed by this Act as the days upon which the instalments thereof are to become due and payable and the person entitled to payment shall accept any such payment.

(3) Any necessary creditor may apply to the Debt Adjustment Board for an order fixing the amount of any instalment or instalments to be paid by the debtor in respect of the recoverable indebtedness at an amount greater than the amount fixed by this section or fixing as the date or dates upon which any instalment or instalments shall be paid a date or date other than the date or dates prescribed by this section, but no such order shall be made except—

(a) upon five days' notice of the application to the debtor unless otherwise ordered by the Board;

(b) a full enquiry has been made by the Board into the necessary circumstances of the creditor and the circumstances of the debtor; and

(c) the Board is satisfied, having regard to the necessity of the creditor and the ability of the debtor to pay, that it is convenient and proper that the debt should be made payable otherwise than in the instalments and at the time hereinbefore specified.

(4) In case default is made in the payment of any instalment or the part of any instalment directed to be paid pursuant to section 9, the Board may in its discretion, after due inquiry into the circumstances, make an order declaring that any instalment or instalments not then due are due and payable forthwith and issue a permit authorizing

the creditor to take such proceedings in respect thereof as may be specified in the order.

(5) (1) From and after the coming into force of this Act no action of any kind shall be maintainable and no proceeding by way of distress or seizure for the recovery of any old debt shall be taken nor shall any such action or proceeding be continued unless the person liable for the payment thereof has made default in the payment of any of the instalments prescribed by section 7, and a permit has been issued pursuant to this Act authorizing the taking of such action or proceeding.

(2) For the purposes of this section "proceeding" includes the exercise of any right to seize or take possession of any crop created by any crop lease given in respect of any old debt or by virtue of any attorney by a debtor to a creditor in respect of any old debt.

(3) (1) In case any instalment of an old debt is not paid on the day fixed by this Act for the payment thereof the person entitled to enforce payment of the old debt may apply to The Debt Adjustment Board for a permit to take such action or other proceedings as he may be entitled to take.

(2) If after due inquiry the Board is satisfied that the non-payment of the instalment was due to circumstances over which the debtor had no control such as drought, hail, frost or any other act of nature or due to the fact that the debtor was unable to make the payment because of his inability to obtain payment of debts due to him from others by reason of the existence of any similar circumstances the Board shall not issue the permit applied for.

(3) If after such inquiry it appears to the Board that the debtor is in a position to do so the Board may by order require the payment of so much of the instalment as the Board deems fit and proper, and the Board may make the failure to comply with any such direction a condition of the refusal of a permit and shall distribute the balance of that instalment among the subsequent instalments and make directions thereto accordingly.

(4) Upon the refusal of any application for a permit pursuant to subsection (2), the time for payment of the instalment in respect of which the application is made shall be the fifteenth day of November following the application if the application is made before the first day of July, and if the application is made after the first day of July, on the fifteenth day of November of the following year: the time of payment for every subsequent instalment shall be postponed by the same number of years as the number of years of the postponement for the time for payment of the instalment in respect of which the application is made; and in case an application is made for a permit in respect of more than one instalment the earliest of such instalments shall be the instalment in respect of which the application is made, for the purposes of this subsection, deemed to be the instalment in respect of which the application is made.

(5) The provisions of sections 8 and 9 shall apply as provided in the section 8 and shall not apply when the debtor is a person against whom a Writ of Attachment may be issued, pursuant to the Rules of Court relating to absconding debtors.

(1) The period during which proceedings by a creditor are prohibited under this Act shall not be included in the time within which an action or other proceeding is to be commenced under **The Limitation of Actions Act, 1935**, or under any other statute or law for the time being in force within which actions or proceedings are to be commenced; and any party to an action or other proceeding which has been prohibited by this Act shall have the same time for continuing such action or proceeding after the expiry of the said period as he would have had if the action or proceeding had not been prohibited, and shall not be precluded by reason of the date.

(2) The Lieutenant Governor in Council may from time to time declare that any kind or description of debt is a debt to which this Act does not apply and every such order shall take effect upon publication in **The Alberta Gazette** either upon publication or upon any later date thereby fixed for the purpose, and upon such publication shall have the same force and effect as if it had been enacted as a part of this Act.

(3) (1) The provisions of this Act shall not apply to any debt or old debt, which by any contract, agreement or settlement between the parties has been reduced to an amount which is less than the amount of the indebtedness which would otherwise be recoverable under this Act.

(2) Except as provided in this section, it shall not be competent for a debtor to waive or to forego any of the benefits to which he may become entitled under this Act, and every contract, agreement or arrangement whatsoever to that end shall be absolutely void.

(4) The provisions of **The Debt Adjustment Act, 1936**, as to any matters of procedure in relation to the issuance of permits shall, mutatis mutandis, apply to the issuance of permits under this Act.

(5) This Act and **The Debt Adjustment Act, 1936**, shall be read and construed together, and in the case of any conflict between any of the provisions of this Act and any of the provisions of **The Debt Adjustment Act, 1936**, the provisions of this Act shall prevail.

(6) The provisions of this Act shall not be so construed as to authorize the doing of any act or thing which is not within the legislative competence of the Legislative Assembly.

(7) This Act shall come into force on the day upon which it is assented to.

MINERAL DEPOSITS OF POSSIBLE HIGH VALUES LOCATED

BRITAIN BUILDS AIR FREIGHTERS FOR MARITIMES

Five Machines, First Unit, Named After Eastern Cities

LONDON, Sept. 29.—The first complete fleet of British aircraft built for Canada was named Monday Hanworth by Lady Sheldene, widow of the director-general of the Canadian Institute of Mining and Metallurgy.

The five machines comprising the first units of the fleet also are the first British aircraft specially designed for Canada, and were built by General Aircraft for Eastern Canada Airlines and are named after the five largest cities in Canada which they will operate: Montreal, N.D., Saint John, N.B., Sydney, N.S., Halifax, N.S., and St. John's, Nfld.

Gordon England, managing director of General Aircraft, said the aircraft were built especially for Canada, and that the first machine had come to the Old Country to purchase a complete fleet would be welcomed.

During the tour, Dr. Joffre will visit several mining camps and properties under development in the North West Territories, except the Fort Norman oil fields.

OUTLINE OF PLANS

"The mineral wealth that Sir Eric [Hanworth] has told me about is quite remarkable," said Dr. Joffre. "I am anxious to determine its purity and see if it is in sufficient quantities to warrant exploitation."

He will also visit the southern part of the country where small crystals of blue cordum occur some of which may possibly be of gem quality," he said.

During the tour, Dr. Joffre will visit several mining camps and properties under development in the North West Territories, except the Fort Norman oil fields.

BORN KICK-PROOF

NASHVILLE, Tenn., Sept. 29.—Males are born with kick reflexes which tend to be frustrated by a new "kick-proof" barn when they are born, according to a Tennessee state fair.

The kick-proof has been attained by the addition of an extra layer of oak plankling between the stalls.

AT YUKONIAN BAY

At Yukonian Bay, the surveyor mapped some 14 veins. "The work of the survey," he said, "was to expose

the veins and at least 28 veins with visible gold could mine."

PAIR OF MINEOWS

REGINA, Sept. 29.—Appeal court handed out judgment Monday against Harry and Mrs. Regan, who started suit for divorce, to provide more money for his wife's legal expenses.

The trial was adjourned by a judge in chambers.

One pair of meadow mice could have 275 billion descendants within 10 years, if every descendant reproduced and bred normally over that period.

To banish lake or Gordon lake was mapped by a sub-party last year, he said, and on the strength of formations shown in a trial cut, made side trips to the main map prospects west of the July 1st map.

He stated that, at the time he left, there were at least 28 veins with visible gold around the bay.

A DESIRABLE CONDITION

It is to be hoped Hon. J. G. Gardner can succeed in persuading his colleagues in the Dominion Government to loan Edmonton the badly needed \$500,000. This is particularly so because since both Edmonton and Calgary obtained loans of federal money a couple of years ago, the transaction being put through the provincial treasury in order to maintain provincial revenue.

It would be to be hoped that if the loan is granted this will be on condition that Edmonton must spend a corresponding amount of relief money on a work and wages program, instead of handing it out as a handout.

The stimulus could be fairly made, since

the need of the city arises directly from the paying out of city money for relief, and because the improvements created by the work program would increase the fixed assets standing against the new loan.

CANADA'S RADIO SERVICE

The newly appointed Governors of the Canadian Broadcasting Corporation have made a good beginning in selecting Major W. E. Gladstone Murray and Dr. Augustine Frigon as manager and assistant manager respectively of that organization. These selections justify the very general expressions of approval which followed the announcement of the members of the Board a few days ago. Their view as thus indicated seems to be that nothing is too good for Canadian listeners.

Major Murray is a native of British Columbia, had a brilliant scholastic career, and quit journalism to join the staff of the Canadian Broadcasting Corporation, which he joined in an executive position in that organization, and with experience that will be an invaluable asset to the Canadian system.

Dr. Frigon, like Major Murray, has a Canadian education and ability, and has had a post-war military record. They should make a great team, and with the backing of a Board that is fairly representative of the national life, will undoubtedly make the service distinctive and creditable.

It is to be supposed, and hoped, the appointment of Major Murray means that the system is to be operated and extended along the general lines of the British system. This is recognized to be the finest in the world, and the pattern adopted in Canadian states and conditions should make Canadian radio the best on this continent.

DISMARMAMENT?

The plan of disarmament delivered to the League of Nations assembly by Antonio Eden, Britain's foreign secretary, is a timely and courageous statement of policy on one of the most tormenting problems of international affairs. The gathering threat was accompanied by the race armaments, claimed as a major cause of war and pressing significance. The Round Table has estimated that the central European nations will be adequately equipped for war within a year. If that is not called to the attention of existing governments, who can any wonder that Eden warned the fear-scarred continent of the necessity of appealing its inflamed discontent?

Great Britain has an honorable record in disarmament. In the peace settlement she has given Europe sustained initiative on this issue, although the League powers have refused to pay her the honor of imitating her example. Her enforcement forces have dwindled from 249,000 to 12,000. France, moreover, has been released from active service since the cessation of hostilities; her territorial establishments have shrunk from 313,000 to 130,000.

Last year England resolved to fortify herself against external aggression since Europe obviously was more interested in its own squabbles than in the achievement of a durable peace. Eden's speech may be the League's last chance to have Britain co-operate with it at least to secure moral and physical disarmament.

LOOKING FOR BUSINESS

France, after a five year struggle against "inflation," is not desirous of the franc just to keep a few hours longer. The gold standard is not needed and is not wanted. The major, very practical, and immediate purpose is to get French workers back on the job, stop the strike, stop the strikes that are on a recovery trend, and reduce the proportions of the un-

employment problem. There, as elsewhere, the urgent need is to keep money circulating.

French goods sold abroad will net the producer more francs than before the money unit was eliminated, or the foreigner is willing to pay for them, regardless of exchange rates. In practice, the seller and the buyer always split the difference in such circumstances, and more business is done. The stimulation of French export trade is intended to put new life into the country's industry and make work and more plentiful.

The more France sells abroad the more she must buy abroad. Otherwise she cannot get paid for her products. Canadian miners and farmers produce what France needs. France's producers there stand to sell more goods there how much more depending largely upon how much French goods Canada will take in payment.

The re-evaluation of the franc is a step toward restoring international trade, the most important that has been taken since Canada and the United States negotiated the reciprocity agreement a year ago. It is the more significant because France played the game of economic nationalism as long as it dared, and only decided to re-enter world commerce when an upheaval was the prospective alternative.

PAVED ROADS AND MUD HOLES

The newspaper reader learned a few days ago that the first miles of a paved highway had been completed in Strathcona to Cochrane and on Saturday that fifteen autodromes had been stuck in the mud overnight on the Peace River highway near Lesser Slave Lake, the 60 occupants having to spend the night as best they could in their cars.

These two items do not stand as isolated instances of highway building in southern and northern Alberta. They are typical of the road projects that have been coming from the two sections of the province during the past year. For whatever reason, southern Alberta is getting paved highways, while northern Alberta has the Jasper highway quadrupled and a dirt road to Peace River that is flattered by the name of "dry" road.

The present Government did not create the tradition that southern Alberta must come first in the building of permanent roads. But it has maintained that tradition with fidelity worthy of a better cause.

Nobody grudges the south country its gravelled and paved roads. It deserves them and should have them. And admittedly it is easier and cheaper to build such highways in a dry section of the prairie than in a wet area where rich black soils pack up like a sponge and where gravel deposits are conspicuously scarce. But where roads are difficult to build and expensive to maintain, the people of the province that is most thickly populated, Central and northern Alberta have not received the amount of permanent highway construction they were entitled to, under the present or former Government.

Nobody grudges the south country its gravelled and paved roads. It deserves them and should have them. And admittedly it is easier and cheaper to build such highways in a dry section of the prairie than in a wet area where rich black soils pack up like a sponge and where gravel deposits are conspicuously scarce. London—The council of Greek ministers, in agreement with King Constantine, has decided upon military co-operation with the Allies.

Montreal—Sir Wilfrid Laurier addressed a great meeting here last night and urged French Canadians to turn their assistance whole-heartedly to the winning of the war.

London—The crew of the Zeppeleins which was wrecked during the recent raid were given semi-military funerals.

TEN YEARS AGO

When the road program at present being carried out is completed, Premier Brownlie will head the Good Roads Association, Alberta will have 1000 miles of good roads, much of the mileage gravelled.

Farm Crops Insurance

By R. T. ELLIOTT, K.C.

The views expressed by Mr. R. T. Elliott, K.C., in this column are his own personal views and are not necessarily those held by the Edmonton Bulletin—EDITOR.

CONVINCED that a permanent remedy is necessary to prevent ruin to farmers by climatic disasters, including drought, flood, hail and fire, the Washington government has appointed two committees to work out a complete plan to be brought before Congress.

In the official instructions outlining the work to be undertaken by the committees, President Roosevelt wrote:

"The time has come to work out permanent measures guarding farmers and consumers against disasters, price collapses, and failures of crops due to drought. Crop insurance and a system of storage reserves should operate so that the surpluses of fair years could be carried over for use in the lean years."

"There is no question that the welfare of the entire nation would be served by including, as keystones of our agricultural policy, crop insurance, and storage of reserves along with conservation of soil and water, better land use and increased farm income."

There is no doubt that an efficient crop insurance will be brought into force in the United States, no matter which party wins in the elections next November. All schools of political thought are agreed that the success of the farming industry is so vital a factor in national prosperity, that risks of staggering losses due to climatic conditions must be insured against. All branches of domestic commerce are injured and depressed when drought or tempest wipes out the buying power of any substantial area of farmlands.

Nobody thinks of sending a ship to sea without insurance against the perils of the sea. This has been established practice for over a century.

Up to date, and year after year, farmers have gone on planting crops without any insurance against the perils of the weather; just as destructive as the perils of the sea. This is coming to an end.

Some months ago the Edmonton Bulletin advocated establishment of a crop insurance system in Canada. The new movement in the United States will undoubtedly tend to strengthen the movement in Canada to which the Edmonton Bulletin gave definite form.

First Aid to the Ailing House

DUSTY CONCRETE

By Roger B. Whitman

It is very often the case that a little concrete will be left over when it may be swept. The usual cause for this is that the concrete dried out before it had time to cure. Concrete does not harden by drying, but by setting, which can take place only while the concrete is damp. For proper curing, concrete is best left in a moist condition for days after laying. Coated that is dry can be hardened and set by spraying with water. Placing the concrete in a moist environment will help.

A concrete can also be made of cement, which is the cementitious material in all cements.

Cement is a powder which is mixed with water. The mixture is poured on the floor, and spread with a trowel. The concrete should be allowed to harden

all that it will.

MILDEW ON PAINT

Painting always becomes darkened in a way that does not seem to be dirt. This is likely to be mildew, which is a fungus that attacks anything else in damp air. Paint in a damp, dimple shape is more easily attacked than dry colors, paint will mildew more readily than white. This is for the reason that white paint requires more oil than white and light colored paints, and are therefore more easily attacked.

White or light paint containing a considerable proportion of zinc is not subject to mildew.

Mildew can be prevented or greatly checked by cutting down on the amount of water used, and increasing the proportion of turpentine and zinc. Another remedy is to mix a paint powder calmed into each gallon of paint. Calmed being a salt mixture of zinc oxide and mica, which is a vegetable growth. Before refinish mildew paint the surface should be cleaned by scrubbing with a scouring powder followed by steel wool.

CRACKED RADIATOR

QUESTION—There is a crack at the bottom of one of my room radiators. What is the cause?

ANSWER—Yes, you can use iron cement. Get a very thin film of iron cement and lay it over the crack 1/4-inch deep. Mix the cement according to the directions given on the label. Let it dry into the groove with a hammer and a screw-driver.

The cement will not be brittle enough to break when it is put on the surface.

WALL FOR A SHOWER

QUESTION—I am putting in a shower over my bathtub. What is an economical way to make the wall?

ANSWER—For a temporary wall you can get this 5 feet wide and even wider. Stick it on with a coat of plaster and a nail at a hardware store. This is nearly waterproof when dry. Be sure to make the plaster thick enough so the water won't penetrate the tub cloth over the top edge of the tub when it is wet.

MINERS Are Back

NEW WATERFORD, N.S., Sept. 29—New Waterford miners tramped back to work today at No. 12 and No. 14 collieries after a week's strike because of wage disputes.

Duce Listens For Message

Friends Join Anniversary Celebration

DONALDIA. Sept. 29—Surrounded by more than 100 of the friends and neighbors whose experiences they have shared for the past 20 years, Mr. and Mrs. E. A. Bailey celebrated their golden wedding anniversary at the farm home on Sunday, September 26.

They came from Idaho 20 years ago to make their home in the first of their own. Frank Butler and Russell also reside. Mr. Lawrence and his wife, Mrs. S. R. Braggott, and Mr. Knudsen express to the beloved old couple their best wishes and delighted them with a few reminiscences of old days in Donaldia. A personal message from King followed the after supper hour.

RECEIVE MANY GIFTS

Mr. and Mrs. Bailey were made the recipients of many handsome gifts from their friends among whom were present: Mr. and Mrs. Casper Hende and their daughter of Rosedale, Mr. and Mrs. E. W. Gries, Mr. and Mrs. J. C. McLean, Mr. and Mrs. W. L. MacLachy, Mr. and Mrs. De Witt, Mrs. Peterson, Mr. and Mrs. F. J. Stettler, Mrs. Erickson, Mr. and Mrs. O. Vike and Mr. and Mrs. O. Vike.

MANY ENTERTAINERS

On Monday evening Mr. and Mrs. Bailey were guests of honor at a party arranged in their home by members of the local band, whose activities Mr. Bailey has always taken prominent part. Mr. and Mrs. Bailey were seated at a table covered with a "surprise three-tiered wedding cake and decorated with white and gold, gilded with flowers, on behalf of the lodge.

Mr. and Mrs. Bailey were the recipients of a beautiful Meerschaum pipe and Mrs. Bailey a silver basket filled with flowers, on behalf of the lodge.

Mark Golden Wedding Day

Leading Club Women Direct New Federation

Prominent in club life in Alberta, with the motto of economic and social betterment for women are the officers elected to the new Alberta Federation of Women held in Calgary on Saturday evening. The aim of the Federation is to promote co-operation among the several widely organized women's affiliated organizations of Alberta to work together to attain through them a concerted expression of women's will to be represented in the community. Harold W. Riley, president of the Alberta Council on Child and Family Welfare, was elected president of the Federation. Mrs. J. P. Ferguson, president of the Alberta Council on Women's Institute, was made first vice-president and Mrs. C. M. MacLean, of Edmonton, provincial president of the Imperial Order Daughters of the Empire, was elected second vice-president. Mrs. Richard Price Stettler, resident of Rosedale, was elected president of Alberta, was elected third vice-president. Mrs. Norman Priestley, president of the Alberta Council on the Canadian Legion, was elected fourth vice-president, and Mrs. H. S. Beaven, president of the Canadian Council on the Canadian Legion, was elected fifth vice-president. Mrs. Campbell of Stettler, president of the Alberta Council on the Canadian Legion, was elected sixth vice-president, whose golden wedding anniversary was celebrated in the home where they have lived for 20 years. Guests of honor to the Canadian Legion, which Mr. Bailey is a member, entertained them in their honor.

What women's new executive board, represent, is significant from the point of view of the work which they have at heart. Each officer is cognizant of a vast field of women's interests and endeavor, from her interest in the family to her interest in the scope of social service work before them and their attention to work in the community.

The accomplishments of the Federation, will represent the will of approximately 100,000 women throughout the province, thinking women with problems before them which they will give undivided attention to.

RIDING SCHOOL

GYMKHANA IS GALA OCCASION

Lance riders of black and yellow, straight to the wind, as they ride the Greening Riding School grounds at the weekend for their annual mounted sports.

The events were not without thrill for the crowd of horse lovers who witnessed the games and stunts from the grand stand, and their friends present at the annual mounted convention of the work for the blind were present.

For the blind, a special program, conducted with a great deal of enthusiasm, was presented by Mr. William Browning was the master of ceremonies, which was followed by a social evening, commences promptly at eight o'clock.

Community Leagues

WESTMOUNT

Opening of the Westmount Community League, a "Members' Night" of cards and dancing, proved most successful, receiving much favorable comment, while those formed, prizes being awarded to Mrs. M. Merleld, Mrs. D. V. McLean, Mrs. E. A. Bailey, Mrs. E. Beaty, Mr. J. M. Bennett, Mr. J. Blanchard, Mr. H. S. Krinke and Mr. J. W. McLean.

Mr. William Browning was the master of ceremonies, which was followed by a social evening, commences promptly at eight o'clock.

Fifty Blind Guests Enjoy Chapter Party

Members of the Canadian National Institute for the Blind, who are now in residence at the N.I.B. during the past weeks in their camp, raising funds for their building, were given a few hours of fun and relaxation at the annual meeting of McCauley Community League, in the Community hall, at 95 street and 109 avenue, on Tuesday evening, and all members were present. The business session, which will be followed by a social evening, commences promptly at eight o'clock.

Lutheran Y.P. Make Plans For Annual Rally

Lutheran Young People all over Edmonton, that is, chiefly, members of the Lutheran青年 League, and in surrounding districts, have planned a full program of activities, which will be together on the occasion of their annual fall rally on Sunday, October 12.

They will meet at Borden Park at two o'clock to spend the afternoon in the college auditorium, at which time they will have supper at Concordia College from five o'clock onwards.

In the evening they will gather in the college auditorium for an inspection of the various activities in the program, during which the following will speak: Rev. W. E. Fletcher, who is president of the "Young People's Christian Union"; Rev. A. J. Mueller, who will speak on "Young People As Soul Keepers"; Rev. T. Folkman will discuss "Young People As Soul Keepers"; "A Developmental Topic," Dr. T. G. Chapman; Rev. B. Foster, "Our Youthful Talents"; Miss Helen Quisenberry, "Our Talents and Their Development"; Mr. G. K. Reynolds and Dr. Schenck, "Women Work on Winter Service"; Rev. W. E. Fletcher.

The speakers will be asked to remember that each society is requested to assist in the program with a short talk or a musical or dramatic. Since these societies have served at the college visitors are requested to bring refreshments.

The committee in charge includes: Mr. and Mrs. E. L. Smith, Miss Norma Schwartzenbach, Miss Gladys Johnston, Mr. Peter Bielecki, Mr. John Krueger, Mr. Val Kulak and Miss Edith Randal.

LODGE HOLDS FAREWELL TEA FOR CHAPLAIN

Mr. R. Minter, chaplain of Western Alberta, was given a surprise when the members gathered at the Norwood home of Mr. W. McLean, on Saturday evening prior to her departure to live in Victoria. An emblematic pin was presented to him by Mr. C. McAllister, Worthy Master, on behalf of the Lodge whose work she had done so well. Mr. J. Murray also presented a pretty gift to Mr. Minter from her association.

At the tea hour Mrs. H. H. Quick presided, and Mrs. Mowatt was in charge of the refreshments. Mrs. M. M. Murray, Mrs. E. Dick, Mrs. C. Chambers, Mrs. E. Dick, Mrs. S. Scott, Mrs. W. M. Scott, Mrs. R. Miller, Mrs. H. S. G. Miles, Mrs. M. A. H. Rees, Mrs. M. G. Gillis and Mrs. V. V. Porte.

Other members of the club are Miss Clara King, Miss Blanche Thornton, Miss Maylene Willis, Miss Margaret, Miss Irene McGill, Miss Kathleen Prause, Miss Winnifred Andley, Mrs. Anna Hoffman, Mrs. Dora Newton, Mrs. B. Spencer, Mrs. M. Muttart, Mrs. W. Spratt, Mrs. W. E. Biddle and Miss Vera Porte.

The dove head butterfly has an excellent likeness of a dove's head and one of its front wings. Even the eye spots are in the right places.

Who's Who

MRS. GEORGE HOGG.

President and organizer of Edmonton's first Health and Strength League, which in less than a year has grown to 100 members, and is now exhausted with excitement. "Kimi"'s eternal comment is remarkable—she is a woman and we are all the fears and alarms that spread, for this "great and wonderful world."

"Why, we are kind players," one woman commented recently, "and we are all the fears and alarms that spread, for this "great and wonderful world."

It would be too bad if polite conversation ever became extinct, but there is no time for that now, there is the weather, and I suppose that the little spark of gossip is still good, shade, and we are all the fears and alarms that spread, for this "great and wonderful world."

It would be too bad if polite conversation ever became extinct, but there is the weather, and I suppose that the little spark of gossip is still good, shade, and we are all the fears and alarms that spread, for this "great and wonderful world."

It would be too bad if polite conversation ever became extinct, but there is the weather, and I suppose that the little spark of gossip is still good, shade, and we are all the fears and alarms that spread, for this "great and wonderful world."

the social round

HEY are practically a thing of the past, the affairs of the Jones and their friends, as far as any interest among them at teat and bridge is concerned, have been entirely taken care of by the Joneses, who are now exhausted with excitement. "Kimi"'s eternal comment is remarkable—she is a woman and we are all the fears and alarms that spread, for this "great and wonderful world."

"Why, we are kind players," one woman commented recently, "and we are all the fears and alarms that spread, for this "great and wonderful world."

"It would be too bad if polite conversation ever became extinct, but there is the weather, and I suppose that the little spark of gossip is still good, shade, and we are all the fears and alarms that spread, for this "great and wonderful world."

"I suppose that the little spark of gossip is still good, shade, and we are all the fears and alarms that spread, for this "great and wonderful world."

BOND MEN WILL BE ASKED TO PROBE CITY'S FINANCES

Edmonton Bulletin

AN INDEPENDENT NEWSPAPER IN PUBLIC SERVICE

SECOND SECTION

EDMONTON, ALBERTA—TUESDAY, SEPTEMBER 29, 1936

PAGE NINE

Bert Oja, Winnipeg To University Here Rugby Star Comes

Who's Who

Bert Oja, chosen All-American of the year when he was a member of Minnesota's Gophers, Gophers, and reached the final four in the national tournament in Detroit at University of Alberta. Oja, one of the finest secondary defencemen in the country, has been selected to play for the Canadian team which will continue to play with Winnipeg's Dominion champions for the first time. He will travel by air to an airport to commute between this city and the fields on which the games will be played.

There is no possibility that he will play with Alberta's Golden Hawks this season, but Coach John MacLeod has invited him to remain until next year to assist in coaching the forward wall.

Oja, the tremendous bluenose who was responsible for stemming the Hamilton Tiger's drive in that tremendous contest, was almost single-handed he turned back the Tigwons and completely wrecked burly Brian Timmins' "Great Man" was tottering around at the end, he had been shot through both legs.

H. E. ATTACK

Henry E. Attack, Murician, Resident Musician, 100th st., Edmonton, born March 1906, son of Joseph and Elizabeth Attack. Educated at Wakefield and now resides in Edmonton as musician and started professional career as amateur organist at Wakefield. After attending training at Leeds College of Music, came to Edmonton in November, 1926, as organist and conductor of the Edmonton Union Church, in which work and music teaching, he is still engaged. He has performed with revival of choral music in Edmonton, and last year achieved a notable success with his band and orchestra in presenting Handel oratorio, "Saul." Has also acted in several plays, and distinguished visiting artists and has piano or present another oratorio, "The Crucifixion." Church. Recreations: Contract bridge, golf, tennis. Is chairman of Edmonton Open Air Society. Business address: Room 100, Alberta Building, Edmonton.

NEXT—E. M. Gunderson

M'BEATH RITES ON WEDNESDAY

Donald MacBeath, 10446 106 street, 62-year-old employee of the government, son of Calder and F. MacBeath, and vice-president of the Alberta Veterans' and Old-Timers' association, was killed in a fall at the elevators of the Hotel Southland Wednesday afternoon. An inquest was held Tuesday afternoon.

The deceased, Donald MacBeath, who has been a resident of Edmonton for more than 30 years, will be buried at the cemetery of the First Presbyterian church to the Edmonton cemetery. The service with full military honours will be conducted by Captains Osborne, and Connally and McKinley will be the funeral directors.

He is survived by his wife and one son, Ross, of Edmonton, one son, Major Stewart, of Portland Oregon, and the brood of Dr. William MacBeath, in South Dakota.

THE GATEWAY OUT FRIDAY

First issue of the official University of Alberta publication, "The Gateway," will be released Friday. The paper will appear twice weekly, and deal almost exclusively with University news.

Frank Swanson, editor-in-chief of the paper this season, announced Monday that Phil Battum would be the managing editor of the paper, pending the meeting of the Publications Board, which will meet soon to ratify the appointment.

The paper is printed in the University building, and all the editorial work on the paper is given gratis by ambitious, potential news-papermen.

The Publications Board is a new organization, created last spring, which will handle all the University publications, namely "The Gateway," the year book, and the Student Handbook. They will have first voice in all appointments to staff positions on all three publications, and will be able to free the editors from time to time. It is composed of Frank Swanson, Bishop Frank Swanson, Fred Glover, Margaret Irving, and Archie McEwan.

Gleaned From The News

The Edmonton Stamp Collector Club will be "home" to visitors in the Edmonton Public Library Thursday, October 1, at 8 p.m.

A cold watch and a thaw have ransacked the home of M. S. Eby, 10014 113 street, during the night.

Blankets valued at \$10, the property of E. V. Johnson, 10423 Saskatchewan, were taken from the room club on Monday evening.

A general meeting of the Northern Alberta Game and Fish Protection Association will be held at the Coronation Club on Monday evening to discuss a proposal of the club to ban meetings of the Alberta association several times dealing with natural life shown.

G. L. Corlett, poultry commissioner for Alberta, will address members of the Edmonton Poultry Club, Thursday at 8 p.m. in the board room of the Grain Company. It is also announced by club executives that the winter session will begin on Thursday of each month during the winter season.

A general meeting of the Northern Alberta Game and Fish Protection Association will be held at the Coronation Club on Monday evening to discuss a proposal of the club to ban meetings of the Alberta association several times dealing with natural life shown.

The travel man taking hold of the construction of the Jasper East scenic driveway along the East Saskatchewan River, has asked the river bank to break away, and that the scene beauty of that section of the city were being spoiled by the removal of the trees.

Mr. H. C. Clark, mayor of Jasper, for the road, Mayor Joseph A. Clarke, C.R.C., declared at Monday's meeting, "It looks like a good thing to do."

"It is pretty strong looking," he said. "Of course, quality is always important, but we have to have a good deal of development, but I think it will likely prove to be important."

He stated a report by City Engineer W. D. Hadow, which stated that the road was being constructed according to accepted engineering practice.

Boy Scout activities for the coming year will be discussed at a meeting of the provincial association being held at Red Deer Tuesday evening. The association was formed for Camp Woods at Sylvan Lake, W. J. Dick, Edmonton, provincial president, and Mr. W. H. Blackman, executive secretary, Col. J. H. Wood, Calmar, provincial commander, will also be present.

Mr. H. C. Clark, president of the Alberta branch, will be present.

Mr. F. J. Miller, of Edmonton, was a visitor in Edmonton from Sept. 21 to 24.

Jean Jones and June Rita, Mexican girls, will be the footloose to get in some big game hunting at the Lincoln.

Mr. W. H. F. Farthing, of Victoria, visited Atlin the Lincoln, Rickson brothers, from Teulerville, on business.

A. G. Nelson, of Yellowknife, will bring the city to the Royal George.

Police Court

Buying of furs is on the upgrade,

according to E. Chevrelle, Winnipeg, a student of the University of Canada and Foreign Body of Canada who is a ton of the western fur trade.

He said that the public should address a public meeting to be held at the First Presbyterian church here, and will speak on the subject.

Frank Swanson, Fred Glover, Margaret Irving, and Archie McEwan.

A story of a country tour in a student automobile, terminating at Regina, was related by Lloyd Walker and Kenneth Abbott of police court Tuesday. Pleading guilty to the charge of driving under the influence of alcohol, the two owners of A. E. Ottewell, the two 18-year-old Edmontonians were remanded in custody until Friday for sentence.

George Wardrop, 18, pleaded guilty to charges of assault and at the same time admitted that the car was set up until Friday. The accused is alleged to have beaten Mrs. Swanson in a fight in a local dance hall.

That the crowd was frozen solid when she Mrs. Lillian Porter was leaving the clothing store in the store here, to be displayed in the store here, and was unable to move from time to time. It is composed of James Alexander, Bishop Frank Swanson, Fred Glover, Margaret Irving, and Archie McEwan.

Seven persons charged with infractions of by-laws had their cases set over until the afternoon court session.

SHIPS IN ICE TO GET FREE RIDDELL SAYS

Veteran Radio Man, Caribou Hunter, "Out" After Seven Years

Supply ships in the western Arctic have had a bad season but there is still a strong likelihood that they will get through to at least one port in the region, Captain Q. M. S. Frank K. Ridell, veteran radio signaller of the Royal Canadian Corps of Signals, told the Canadian Press yesterday from Akavik, where he has spent 10 years.

Ridell "out" for the first seven years entailed more hardship than he had imagined, but he managed to make himself out of the frozen north and return to civilization.

He said he had been

Out of the North

Left to right are shown Mr. Fred Jefferis, head of the geological survey in the North Territories; Neil Campbell, of Macmillan-Hall, geology student at the University of Alberta and assistant to Dr. G. E. Fry, Dominion Land Surveyor, whose maps were of great assistance in the air force search for Flight Lieutenant S. W. Coleman missing in the barren lands. The three men arrived here by plane Monday.

ICE BREAKER

"It's a little while since I left Akavik," he said. "But I understand the ice is breaking again, and I am sure that the supply ships will get through to at least one port in the region, probably Inuvik, if not Barrow. There is a lot of ice in the Beaufort Sea, but the icebreaker is doing a good job of clearing the way."

"The small boats are having a tough time, though, because they have to go through the ice. The Sea Otter, a small boat run by David Pakaskas, an Eskimo, has been stuck in the ice, and so are the Shumagin and the Fox, run by the Canadas fur trading company."

"They will likely get into a harbor or make land, and have to wait out the ice. The big Arctic tugs are carrying so far to the north that they can't get to any place."

CARIBOU HUNTER

Known as one of the greatest caribou hunters of the Arctic, there are stories that when he goes hunting he carries a gun, a knife, a bow and arrow, and a spear. But, "that's a lot of nonsense," he said.

"I am not a lot of nonsense," he said. "I am a lot of nonsense."

FRAMES

Known as one of the greatest caribou hunters of the Arctic, there are stories that when he goes hunting he carries a gun, a knife, a bow and arrow, and a spear. But, "that's a lot of nonsense," he said.

"I am not a lot of nonsense," he said. "I am a lot of nonsense."

GOAT 30 CLAIMS

"We staked 30 claims on the south side of the Mackenzie River. There was a good deal of free gold found in the area, and our finds were visible and the origin discovered and in four places after the general strike in the larger area," he said.

FOUND BIG VEINS

"In just pasting the country over, we found veins of gold showing in the sandstone. There was a good deal of free gold found in the area, and our finds were visible and the origin discovered and in four places after the general strike in the larger area," he said.

LAKES FROZEN

"The men spent a pleasant summer, Dr. Hendersen will be held with all the small lakes frozen and half a foot of snow on the ground. We are now in the winter, and the weather is very severe. We are in the middle of the winter, and the men are still working."

GOAT 30 CLAIMS

"We staked 30 claims on the south side of the Mackenzie River. There was a good deal of free gold found in the area, and our finds were visible and the origin discovered and in four places after the general strike in the larger area," he said.

LAMB LEADS PROS; MRS. PAGE MEDAL WINNER

Toronto Ace Paces Field At Kingston

Tricky Greens and Rain Boost Scores; Lamb Five Strokes Up

By WALLACE WARD
CATARAQUA GOLF CLUB,
Kingston, Ont.—Sept. 20.—
Winnie Lamb of Toronto's Lambton Club, defending the Canadian professional golfers' championship won at Montreal last year, reached the half-way mark in the 72-hole medal play tournament with a five-stroke lead over his fellow Canadians Monday.

Tricky greens and rain-soaked turf at the Cataraqua and Lamb were four strokes over par for the first half of the tourney. His pair of 72s, for an aggregate of 148, was good enough however to keep him in the lead. He is the field, reduced by two withdrawals, to 30 competitors, will play the final round with a five-stroke lead over his fellow Canadians Monday.

Tricky greens and rain-soaked turf at the Cataraqua and Lamb were four strokes over par for the first half of the tourney. His pair of 72s, for an aggregate of 148, was good enough however to keep him in the lead. He is the field, reduced by two withdrawals, to 30 competitors, will play the final round with a five-stroke lead over his fellow Canadians Monday.

BEST IN THE WEST

TRANS-PACIFIC FLIGHT

KAY DINED HERE TODAY
MAY DINE HERE TOMORROW
TODAY HE IS WITH RED STERLING,
THE COUPLE WHO FLEW THE TRANS-PACIFIC FLIGHT.
KAY HAS NO INTERESTS IN LIFE—HIS
JOB AND HIS WIFE.

When Ted saw Kay to carry his coat, he asked him to make a home for Dickie, but the answer was no.

She does not agree, though, with Ted's idea of a vacation. She is successful, must be planned scientifically, and she is not inclined to be rebellious because it insults her husband's intelligence. She is always on time, witty, sharp and bright.

Kay gives a party one night and Ted goes to the movies another, mixing with the guests, goes to his room, and when Kay impulsively decides to take the trip now goes on with the story.

CHAPTER XX

MONTÉ laughed, but his eyes answered Kay's eagerly. There was something restless in his manner, but he turned up, looking out over the ocean.

"I'm going to the Hotel Julia, do you hear?" But it was Ralph's turn to make the trip now.

Kay, however, refused to be dissuaded. The impulse to board the plane was strong, and the mad, reckless flight seemed the answer to all her unhappiness and vagueness. "I'm going to fly away! To fly away from everything that was sensible and difficult, and to leave the world behind me to make the trip, though, with Ralph. She wanted Monte to be the pilot."

"It's your turn, Monte," she said. "Do it for me. We'll look after the ship, and I'll go by the airport. We can say he was ill and that we were unable to get him there."

Doris, alarmed, presented in vain. What had come over Kay to put her in such a state? She had come from Kay to Monte, tried to talk them, but it was no use. Monte had been too much taken away with the notion as was Kay.

"Come on," he cried. "Let's go!" At first he was afraid that the pilot was not to be disturbed. They hurried off to the airport, where the Oriental, with his high good humor, excused about their presence. Doris' eyes followed the two, then Kay took out of her hands. She and Ralph had quite a talk, but nothing before, and felt some satisfaction in the thought that they were flying away.

Kay bought a ticket to Honolulu and Monte reported to the company office. He had signed Ralph's place in the crew of the Marines. Almost in no time it was all arranged, and they were aboard. Passengers appeared. There were leave-takings among the Orientals. Doris stood at the landing place, tears dimming her eyes, as she watched the two. The Oriental had a look of cold disdain that Ilah knew instinctively. She knew Ilah had fixed her, and she was angry.

Kay had an opportunity, through the long hours of the day and night, to study the Oriental. She had the seal closest to the racing room and she seemed to listen to every word. Kay was sitting tensely when the rapid-fire crackling of code came out of the radio. She could see that Kay was terrified to think of what might happen if she told what man had come over Kay to start off on such an adventure. She was sure that Kay had done something to stop them. She had told Ted, or found some means to do it, and Kay was sure to suffer for the outcome of this recklessness!

But Kay had no time to think of what she could do now. Nothing whatever. Perplexed and worried, she turned away.

Kay, likewise, was worried. After the first hour in the air, the flight

of running off with Monte, except as a lark. She had simply taken him for granted, and had never even thought of what would happen to her when they reached Honolulu.

Monte came back presently and spoke briefly to her. He had lost his watch. He had lost it in a very care manner during the long hours of the flight.

"Ted ordered me off the plane at Honolulu to await instructions," he told her. "I was on the radio, and I heard him just now."

"They sat up her eye wide. "Monte, they won't do anything to you."

He smiled and saluted with a gesture that was not as jaunty as he intended. "Adventure in the air," he said.

"Ted didn't say anything about me?" she asked. "The company messenger have come through thus far."

Kay's heart sank. The company messenger had come through the trans-Pacific flight, and she was only his wife.

But she knew now that she owed her loyalty both to Ted and to the air service. She resolved to try to get back to Honolulu.

Kay was defending her own against the outside world, but she was still a part of the trans-Pacific flight.

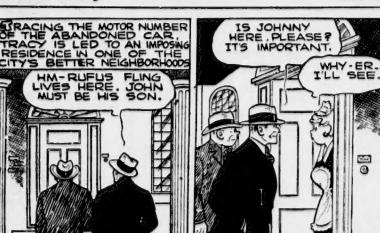

The reason for the unusual filtration, Ilah's appearance on the trans-Pacific route, the mystery.

She didn't know how Ted could have been so easily duped. He had mentioned the "mysterious element" in flying, but was he blind to the danger of people who had been duped into believing harm? Perhaps he was a victim of his own elaborate preconceptions.

Through the right she watched Ilah closely.

SIX MILLIONS ESTIMATE OF FLOOD DAMAGE

At Waco, Texas, 2,500 Are
Homeless—Records

Broken

WACO, Tex., Sept. 27.—Last night
doctors at Waco General Hospital
in Texas were last night before
crews from a dozen wild streams
for the second time in 10 days.
Four were dead, refugees num-
bered 2,500 and flood damage
soared into the millions as rivers
and tributaries, fed by heavy au-
tumn rains, poured through
fields and towns.

Relief from further flooding
was expected to arrive with arrival
of the season's first cool snap. Dam-
age estimated at \$5,000,000 wrought
in the Waco area, the San
Angelo area, will not be equalled,
survey reports said.

BATTERED CROPS

At Waco, where 2,500 homeless
refugees were still without shelter
yesterday, 400 acres of wheat
and cotton crop were
damaged \$1,500,000, City Manager
Terry estimated. He also estimated
damage to East Waco buildings
most totally inundated, at \$500,000.

A total of 10,000 people
gathered in Milam County
where the Brazos and Little Rivers
combined to inundate the area. They
evacuated the sector, and Port Sulphur, where the Little
River flows into the Colorado, became
the focus of a flood emergency.

WATER 37 FEET

At Windmill, 18 miles south of
Brownwood, the Colorado surged
upwards at the rate of a foot an
hour, reaching a record 37 feet—
record of the previous flood.
Hundreds of families fled.

At Rockport, in San Patricio County,
where crops were ruined a week
ago, the rains started reappearing
after a 10-day absence. The water
now stands 70 feet high and took
to high ground again.

**Cranbrook Holds
Prairie Women
On Burnt Count**

CRANBROOK, B.C., Sept. 27.—
Mrs. Merritt McRae, and her daughter,
Violet McGillivray, of Cranbrook,
are being held here pending
sentencing for their conviction
on a charge of selling lottery tickets
in British Columbia police who
investigated the case said the
ladies purported to be on a drawing sponsored
by church at Nelson, B.C.

One of the tickets was sold to the
bogus keeper of the lottery here
who turned it over to church
authorities. Police said there was no
such drawing being promoted in

SCRIP IN PAYMENT OF UTILITIES AND CITY WAGE ASKED

Boy Monarch
Grows Older

Notice of Sweeping Mo- tion Given Council Meeting

Provisional recognition certificates
will be accepted by the city
council for payment of light, water
and telephone bills and such
other services as may be delin-
quent, according to a motion made
to the city council yesterday by
Alfred E. Smith, Social Credit councillor.

The alderman submitted his pro-
posal to the city council which
will be considered at council when
it meets on Sept. 29.

SCRIP FOR WAGES

As an extension of this scheme,
Alfred E. Smith moved another
notice of motion to the effect that
the city accept scrip in payment
of civic employees' salaries in scrip
form, he said.

Al. E. Smith points out that the
government has issued the scrip and
is now accepting it in payment of
civil service and other avenues,
resulting in the placing of a larger
number of men in employment.

"By such distribution,
they will be placed in the hands of
those who are in greatest need and
thus we can eliminate our claim-
ants for utility services," the alde-
rman reads.

MAPLE BILL

The motion continues: "That the
city of Edmonton by its various
officials and departments
accept scrip certificates from
the public in payment of monies
owing to the city for utility services
and other services to be designated
by the city council from time
to time and that the com-
missioner of finance accept such
arrangements and do such
things as may be necessary or
convenient to effect the aims
of the said motion."

It was reported this plan could
be put into effect by a simple council
resolution which would give the city
an injunction which prevents the city
from entering into an agreement with
any utility company to accept scrip in
payment of its bill.

Under Al. E. Smith's plan, certifi-
cates would be accepted from in-
dividuals in payment of city bills.

CIRCULATION PLAN

Following up this proposal, Al. E. Smith
moved a second notice of motion
that the city be given power to
make a loan to the city treasurer
from time to time.

Al. E. Smith, a strong sup-
porter of the scrip plan, pur-
ported to be on a drawing sponsored
by church at Nelson, B.C.

One of the tickets was sold to the
bogus keeper of the lottery here
who turned it over to church
authorities. Police said there was no
such drawing being promoted in

DRAPER SCORES WRONG REPORT ON TAR - SANDS

Taking issue with Al. E. Smith,
the alderman stated that he had
been informed certain Edmonton
streets on which they had been
painted with tar sand were not
the McMurray Asphault and Co.
Informed Monday night
that the product had been used
on stretches mentioned by Al. E. Smith.

Al. E. Smith, a strong sup-
porter of the scrip plan, pur-
ported to be on a drawing sponsored
by church at Nelson, B.C.

One of the tickets was sold to the
bogus keeper of the lottery here
who turned it over to church
authorities. Police said there was no
such drawing being promoted in
